WORK EXPERIENCE

Full Stack Web Developer

01/2026 – Present | Doha, Qatar

The Group securities

Developed high-performance financial web and mobile applications using **React.js**, **Next.js**, and **React Native** at **The Group Securities**, building scalable and responsive interfaces for trading and financial platforms. Contributed as a full-stack developer by integrating RESTful APIs, optimizing performance, and improving frontend architecture.

Full Stack Web Developer

02/2023 – 12/2025 | Amman, Jordan

Sitech Company

Worked on multiple client platforms including **Lebara KSA**, **Rekab KSA**, **Sekaya KSA**, and **Nafith KSA**.

- Built scalable web applications using **React.js** and **Vue.js**, implementing **Redux** and **Vuex** for efficient state management.
- Developed **backend services and RESTful APIs** using **Node.js**, **Express.js**, and **NestJS**, integrating **MongoDB**, **PostgreSQL**, and **MySQL**.
- Implemented **microservices architecture** for **Nafith KSA**, utilizing **Redis caching** to improve system scalability and performance.
- Implemented **server-side rendering with Next.js**, improving SEO visibility and page performance.
- Integrated **Strapi CMS with Node.js applications**, enabling non-technical teams to manage and update content easily.
- Containerized backend services using **Docker** to ensure consistent environments across development and production.
- Collaborated closely with **UX/UI teams** to deliver responsive and user-friendly interfaces.

Frontend Developer

09/2021 – 01/2023 | Amman, Jordan

Shopyard Company

React Native Developer :

- Developed multiple mobile applications from inception to deployment using React Native.
- Implemented efficient UI/UX designs for seamless user experiences.
- Integrated applications with backend systems through RESTful APIs and GraphQL.
- Optimized application performance, conducted code reviews, and implemented best practices.

React JS Developer :

- Responsible for creating different websites from scratch using React, in addition to control panels that server many sites and the ability to link them with backends using the API.

Languages

ENGLISH — Fluent

ARABIC — Native/Bilingual
